DETAILED ACTION

The following is a response to the appeal brief filed on January 17, 2006.

Information Disclosure Statement

The information disclosure statement filed on September 26, 2005 has been acknowledged, however the foreign references cited DE 10313928A1 and DE 10308310A1 has not been considered due to a copy of these references not being provided for review, 37 CFR 1.98(a)(2).

Response to Arguments

Applicant's arguments, see pages 9-10 of the appeal brief, with respect to the Kaplan et al reference not disclosing a differential assembly being rotatable relative to the ring gear assembly have been fully considered and are persuasive. The 102(e) rejections of claims 1 and 11-23 has been withdrawn.

Allowable Subject Matter

Claims 1-25 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-a torque transfer assembly having a ring gear assembly and a differential assembly wherein the differential assembly is rotatable relative to the ring gear assembly and in combination with all the remaining limitations of claim 1 including the friction clutch, the pump and the relief valve limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3681

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
